JOSIAH TURNER, Jr., EDITOR.

WASHINGTON, August 17.—Judge Dent has written to Secretary Boutwell a pungent letter, of which the following is a copy:

WASHINGTON, D. C., August 17, 1869.

To Hon. George S. Boutwell, Secretary of the Treasury.

SIR:—I shall make little apology for asking your attention to my letter, and less for the nature of its contents. You were the first to deny the political orthodoxy of my friends and myself, and by the rules of the forum I am entitled to a defence.—Again, you hold an office of the republic, and your acts, therefore, are legitimate subjects of criticism by the humblest citizen thereof. But in some respects we are alike. For instance, we are both aspirants for place, with this difference: You aim to be the next President, with every assurance of success, "except" in the opinion of the people.

While I seek an humbler place, with my hopes in disastrous eclipse, "except" in the judgment of Mississippi, so in the probable results of the future we both stand adverse to the judgment of the country. In the pursuit of your ambition you are ungrateful and unscrupulous as to the means of success. Your organ, the New York *Sun*, in the same breath ridicules the capacity of your master, and dwells with emphasis upon your peculiar fitness for office. Your tool, Mr. Bullock, became so reckless in the manipulation of your department in the interest of your ambition and so defiant of the wishes of the President and the country, that to save yourself from an explosion of popular indignation you found it convenient to transfer him to another sphere of scandalous activity, where his talents might be exerted with equal effect andless effrontery. Virginia, Tennessee, Mississippi, and Texas, not to mention anything so humble as myself, were obstructions in the way of your success, because through President Grant's intervention in excludingthe proscriptive clauses from their organic law these States are brought into the Union and firmly welded to his support.

Now, this is in direct conflict with your systematized plans; for what General Grant gets in the next Presidential election clearly Mr. Boutwell will not get, and therefore have you denounced the Conservative Republicans who, are for Grant, that you may obtain the proscriptive Republicans, who are for Boutwell; and by some strange, dexterous management and occult political strategy, you have so worked upon the confidence of the President as to cause him to flourish the club with which you intend to break his head by inducing him to join you in denunciation of the Conservative Republicans—a party created by his magnanimity and triumphant through his encouragement.

But, sir, "your purpose is easily discernible, and has a two-fold object—namely, to destroy the National Republican party in the South, and then to reconstruct from its shattered fragments a Boutwell party, with one Richmond in the field to strike for your crown. But if you cannot succeed in this scheme of desperate enterprise you mean to ruin"—a result, from present appearances, much more likely to be reached.

Your official intervention for Wells, for instance, gave thirty thousand majority to Walker. Your letter to Stokes gave Senter Tennessee by an overwhelming vote of seventy thousand. Your marvellous political sagacity, now active in Mississippi and Texas, will repeat your calamity and again overwhelm you with discomfiture and defeat. Superadd to these results of your unapproachable folly the imposition on these States of your iron clad oath, and the alienation is complete, landing them all in the outstretched arms of the Democracy.

But the consequence of your folly does not stop here—Ohio and Pennsylvania and others will follow. Decide their political status in October, and the North will echo back the condemnation of the South, and peal in your ears this fact, that there is still left enough of the incorruptible virtue of the republic to rebuke you for a wanton repression of that most sacred right the elective franchise. But, sir, this will not deter you from your mad course; you will still persist until every prop that supports our party is stricken away and the whole grand superstructure tumbles about our ears in helpless ruin.

When you were appointed Secretary of the Treasury, and unanimously confirmed by a Senate of every shade of political opinion, did you not take an oath to administer your office impartially and for the exclusive objects of its creation: "To collect the revenue and control the finances of the country?" Is not that office the property of the nation, and yourself only clothed for a time with a little brief authority? Then, sir, how do you explain this perversion of its legitimate uses and functions into a means and instrument of oppression to force and compel an election of obnoxious rulers upon the people of the South?

Is such a course consistent with your oath of office, or do you call this a great moral idea? But, Mr. Boutwell, though you have thus prostituted the power of your office for purposes of oppression, "without the warrant of conscience or law," it may be that you can tell me by what authority you assume to pronounce upon my political orthodoxy. Who constituted you the infallible hope of Republicanism?

Who gave you authority to hurl the political anathemas of the party? Again, what right had you to commit the Administration to your policy? Have you to learn yet that you are only a part of the Administration, and not the whole of it? though your friends believe that a monomania has seized your mind on that subject, and that you verily believe yourself "the State."

Very respectfully, LOUIS DENT.

DO GERMANS SPEAK GERMAN?—Dr. Lieber says that having occasion to visit the eastern part of this city, which is largely occupied by Germans, he asked in his native tongue some direction at a German store which he entered, and that the man, himself a German, was unable to understand him, and he was obliged to apply elsewhere, where also his application was unsuccessful, and the same result attended a third inquiry; and not till he came to the fourth or fifth man, did he find any one who could understand the st ndard German of Berlin and the books. Pray, then, what sort of German is taught in Germany? The people there have the credit of the finest and best schools in Europe, and it would seem teach some *patois*, instead of the German of the higher schools of learning.—*N. Y. Express.*

JUGGERNAUT.

The Great Heathern Festival—The Curiosities of Idolatry.

About this time of the year, tens of thousands of pilgrims are making their way from all parts of India, to the shrine of that god which has the power, as they believe, to obliterate the trangressions of all who make their offerings to him in person.—Juggernaut, the "lord of the world," has been worshipped in the sacred town of Pooree, in the Southern part of Orissa, lying about three hundred miles from Calcutta, for seven hundred years past, and the pilgrims constantly increased in numbers until the year of fatal famine, when the whole country was strewn with the dead. Five years or so ago the attention of the English public was called to a celebration in honor of Juggernaut, within a few miles of Calcutta, at which several natives fell or threw themselves beneath the car and were crushed to death. Of old, the great festivals were never deemed complete unless the triumphant path of the god had been stained with the blood of his worshippers. But the priests dare not encourage that custom now. If a devotee flings himself down before the idol, the Brahmins cry out that it was an accident. The idolatry, however, still cost hundreds of lives every year. The weak and sickly perish by the wayside, and a cholera epidemic usually breaks out at Pooree when the city is overcrowded with pilgrims. The poor creatures are huddled together in a way which seems almost incredible to the European. The temple of Juggernauth stands in a large enclosure in the centre of Pooree. There is a Grecian column of black basalt in front of the principal gate, brought from Kanarok. The god lives in a large tower, and about 640 persons are employed to minister to his supposed necessities. There is an attendant who puts the idol to bed every night, another who wakes him, a third whose office it is to put water and a tooth pick comfortably within his reach, a fourth to paint his eyes for him every morning, as if he were a faded beauty, several others to cook and give him his food, one hundred and twenty dancing girls to amuse him in his heavy moments, and 3,000 priests to worship him—and plunder the pilgrims. All this goes on year after year, while the pilgrims throng every road which leads to the shrine.

DOTY'S WASHING MACHINE,

LATELY MUCH IMPROVED,

AND THE NEW

UNIVERSAL CLOTHES WRINGER.

Improved with ROWELL'S PATENT DOUBLE COGWHEELS, and the PATENT STOP, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Solon Robinson.*

"Your Washing Machine has been in daily use in our laundry and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it, one laundress is dispensed with."—*Wm. H. F. Round, Superintendent of Infant Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price Washer $14, Extra Wringer $9 and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.

No husband, father or brother should *permit* the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

Sold by dealers generally, to whom liberal discounts are made.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

MONDAY, AUGUST 23, 1869.

SHOWING THE CLOVEN FOOT.

Every body knows, who knows anything of the recent political movements in Virginia, Tennessee and Mississippi, that the policy which has triumphed in the two first named States, and is almost certain to triumph in the last, as well as in Texas, embraces the idea of acquiescence in the dogma of universal suffrage, on the part of those who have hitherto opposed it, at least in the States mentioned; and of universal amnesty, including the removal of all political disabilities from those hitherto proscribed by the reconstruction acts, as a concession on the part of the Republican party.

These concessions and the consequent compromise are supposed to be in good faith, and the tone of the Press in Virginia, even the most earnest of those papers which formerly opposed the Radical party, but who went into the new movement, is of such a character as to show that they and the people who went with them in the movement, are perfectly sincere in carrying out the clearly understood terms of the agreement. So unequivocally popular has the Virginia and Tennessee movement become that even the defeated extremists in those States, and the proscriptive Radicals everywhere read it as the handwriting upon the wall that announces their doom.

Hence, there has been a general move on the part of all extreme Radicals, not publicly and irredeemable committed to the proscriptive features of the reconstruction acts, and even by many that are, to place themselves in the current that they see is bound to sweep all before it, and to float again into place and position and retain their grip upon the spoils of office.

In this class we are bound to number the North Carolina *Standard* and that particular class of native and imported office hunters, who adhere to Governor Holden, and who have arrogated to themselves all positions of honor, trust and profit in the State, by the persistent and tyrannical prescription which the circumstances of the times and their own corrupt and mendacious course have enabled them to exercise over a large number of the intelligent and reliable citizens of the State. Without repenting of its sins, or even, as we shall show presently, forsaking them, the *Standard* pushes itself forward as a holy innocent, and claims to be numbered with those who have nothing but good will to all men and malice toward none, in its heart.

We have, in a former issue, stated that the *Standard*, on Wednesday of last week, after various backings and fillings, had come out in favor of the removal of all disabilities from those hitherto proscribed, as comprehended in the term "amnesty." It had gradually approached this point from the other extreme, and one might have supposed, knowing the motive which *always* actuates that paper and those in whose interest it is published, namely, the getting on the winning side, that it would have made some showing of consistency and conciliation in its four-day-old professions; but it seems that a straight forward profession and adherence to any principle is impossible in that vacillating and unreliable sheet.

In its Saturday morning's issue the *Standard*, in an article on, and while making pretension to, amnesty to all men; the removal of all disabilities and the abrogation of all test-oaths, cannot hide its innate malignity and hypocrisy, and is so oblivious of the recent acts of its party as to appear almost wilfully mendacious in its assertions. We shall quote and comment on some few passages of the article alluded to, in confirmation of what we have said.

"That it wishes every man who took part in the rebellion forgiven;

That no man should be disabled from holding office because of having fought against the government;

That all test oaths and disabling laws should be done away with.

This is pardon for offences committed in time of war, and is "Amnesty."

We wish the pardon to be universal—hence it is Universal Amnesty."

These declarations are in accordance with its new professions. Now let's see as to its sincerity in them.

"It (the Government) forgave a part of those who fought against it. No discrimination should now be made. Hence we are opposed to disfranchisement and test oaths.

But we also say to the people to forgive is not to trust. To pardon a criminal is not to esteem him."

Let it be remembered that the Radical party of this State, of which Governor Holden and the *Standard*, and a few carpet baggers were prominent and controlling elements, had a commission in Washington City, while the subject of removal of disabilities was before the Congressional Committee, to prevent the extension of the application of the bill to some, and to urge it in favor of others—the part in whose favor discrimination was made—Radical officers elect in the State.

"Let these men have all the rights of other citizens but never again trust them, for they have proven themselves unworthy of trust. Keep them from office, for they would use its power to the injury of the people, and in opposition to the government."

"Keep these men from office,"—these pardoned rebels. "They have proven themselves unworthy of trust." And yet, Holden, Dick, Rodman, Settle, Tod Caldwell, Cantwell, Pearson, Reade, Pool, Thomas, Barringer, and a host of others, who had "proved themselves unworthy," and had to be *pardoned*, are now holding office. O, consistency, thou art a jewel!

We have quoted these few paragraphs from an article abounding in similar declarations, to show the hollowness of profession of those proscriptive spirits who like the *Standard* and the extreme Radicals in this State, fear the consequences of their former course, and yet hesitate to abandon their proscriptive tyranny over the free white citizens of the State.

WASHINGTON IN THE WRONG.

Lund Washington was left as manager of General Washington's estate, when the General took command of the army.

When the renegade Arnold was cruising and burning about Chesapeake bay, one of his ships anchored near Mount Vernon and called upon the neighborhood for supplies. Lund Washington, among others, obeyed the call. When General Washington heard of it, he wrote:

"I am very sorry to hear of your loss, and a little sorry to hear of my own. It would have been a less painful circumstance to me to have heard, that in consequence of your non-compliance with their requests, they had burned my house and laid my plantation in ruins. You should have considered yourself as my representative and reflected upon the bad example of communicating with the enemy, and making a voluntary offer of refreshments to prevent a conflagration."

Washington was an amiable and forgiving man; yet we doubt if he would have given countenance and shaken hands with such carpet baggers as Abbott, and General Estes, under any circumstances. Especially as Estes says, "he is here as a conqueror, after a four years fight, and, if necessary, he is willing to enter for four years more." Harris, of Franklin, who offered to vote in Charlotte, called the General off by telling him he could get a fight in any way and at any time, and since that time the General has preferred not to enlist, but to collect the revenue.

We are for kindness and civility to Northern men, who come among us for honest and legitimate business; but to such as Estes, Abbott, Laflin, &c., who came, first to murder, and now remain to rule, through negro suffrage, we have no civility for, and no patience with. Abbott, Heaton, Estes, Ashley and Laflin are, and if they are not should be made, odious in the eyes of the public.

These men, strangers, who have thrust themselves upon the public, are determined that a large portion of the citizens of the State, who are among the most intelligent and capable, shall not have their disabilities removed, lest they should have competed with them for honors and place. They have but one policy and one principle, and that is to exclude from office all men who have hitherto been thought capable and worthy to hold office, unless they will first give in their political support. These carpet baggers are the authors of all the mischief, debt and taxes which the people now so deeply feel. Lund Washington might have shaken hands with them but George Washington would not.

NORTH CAROLINA STATE FAIR.

VALUABLE ESSAYS.

Among the many attractions of our approaching State Fair, which has the best prospects of success, will be a series of essays on subjects of general importance.

In pursuance of a resolution adopted at a late meeting of the Society, President Battle has requested various gentlemen, most competent, to give information of value, to prepare papers on specified subjects. Several have already agreed to accede to this request. Among others, we have learned that Capt. John T. Dancey, an accomplished planter in Edgecombe county, owner of the celebrated "Panola" plantation and one of the Editors of the *Reconstructed Farmer*, will read a paper on "the best manures for cotton, including the best mode of making compost."

Those desirous of learning how the Edgecombe planters manage to make a bale to the acre in cotton, will do well to be here at the meeting of the Society during Fair week.

Another subject of importance to our people is Iron. Gen. Robert F. Hoke, who is well versed in such subjects, has consented to prepare a monograph on "Cranberry Iron," which is said to be the only iron on the Western Continent equal to the fartamed Swedish iron of Danemora.

One of the most instructive papers will be on "Fruit growing in middle North Carolina," by Rev. C. W. Westbrook, son of the founder of the Westbrook Nurseries of Guilford County. Mr. Westbrook is an enthusiast on the subject of fruit. He is thoroughly accomplished in his profession. Show him a twig of an apple tree, and he can tell at once what kind of a tree it came from, and its generic and specific name. He can and will furnish information which will be of lasting value to all interested in "pomology," and everybody in North Carolina ought to be so interested.

Speaking of the discharge of Callahan, (Radical,) who brutally and in cold blood murdered Kelly, (Democrat,) some months ago in Richmond, Va., by the Military Commissioner, the *Enquirer and Examiner* says:

The policeman who murdered poor Kelly goes scot free. Such is the result of the farce, miscalled a trial, before the military commission, undoubtedly organized, in this case, *to acquit*. That the evidence adduced before the civil authorities, and especially the dying declaration of poor Kelly, was amply sufficient to show the guilt of the accused, cannot be doubted by any intelligent mind. But the military authorities, have shown a partiality for the prisoner throughout the whole affair, which had prepared the public to expect precisely what has now been announced.

Well, the despairing cry of an oppressed people is: "We are in the hands of the Philistines," and so, "Let us have peace."

MUSICAL LETTER FROM SALEM.

SALEM, August 17, 1869.

MR. EDITOR:—I trust you will allow me space in your columns for a report of a classical "Chamber Concert," given in this place on last Monday evening by the artists whose names figure in the programme which I enclose. The Professors are all native with one exception, Prof. Schneider (*Clarionet*) whose face, however, is familiar here, he having for several years been engaged in Greensboro', and afterwards in Richmond, Va., in a professional capacity.

North Carolina need to be proud of Prof. M. Warner, for in him she owns a finished musician, ranking among the first *virtuosi* in Philadelphia, which city has been his home for some years; he has only returned within the last few months from *Munich* after several years study under Von Bulow, a noted disciple of that master spirit of Germany, Franz Leizt. His interpretation of the compositions named in the programme was given with the true artist's conception of what was doubtless the original inspiration—spirituality of the author's meditations; the misty seas (a happy expression of Gottschalk's in his 'Art Notes') were reached,—there was that grasping, that perfect *sense* of all the metaphysics of *tones* which no amount of instruction can impart to natures not born with it. He played something of Raff's, (not on printed programme,) half invocation, half unrestful *Allegro* which called up the picture of that wild, distrustful nature standing on the mountain of Jungfrau questioning the spirits of destiny.

No one that listened to Prof. Schneider's rendering of Beeman's chaste and beautiful "Evening among the Hills," will ever loose the memory of those marvelous effects he produced in echo upon his instrument, an instrument at all time, perhaps, rather unsatisfactory, save when in the hands of a genius. It was an evening of tender charms, not soon to be forgotten,—this living even for so short a season in a pure art atmosphere,—in a world where for an hour the clangy harshness of the mart cannot intrude—has lost its power to disturb!

I doubt much whether any other place in the State could afford such an array of talent, or such a programme, which, I suspect, is possible, only where the study of *music* (*not* American clap-trap) has always been made the part of an education, as in Germany. Salem would scarcely be practising an egotism were she to assert a claim to being called "the Athens" of North Carolina.

I have only alluded to the two artistes that appeared in the role of soloists; through the other portion of the programme in the trios and quartettes, they were ably supported; the 'cello playing of Prof. Lineback, particularly, was admirable.

Following is what was given during the evening:

PROGRAMME.

Piano Solo. { "Cascade." Pauer. "Spring Song." Mendelssohn.

Editor Sentinel:—In a recent communication dated from this place, there is a glorification of the *National Life Insurance Company*, which is calculated to make a wrong impression. The Agent for that Company certainly did well, but the State Solicitor for the old reliable ÆTNA did better. He was not in the field in competition with the National Agent until Wednesday. His Company stands so high in this County that *he easily obtained more policies and issued a much larger amount* than any one Agent, or indeed than *all the other four Agents* that were contesting for success, although, as above stated, he was not canvasing on the two main Court days, Monday and Tuesday. "Let justice be done, though the heavens fall." T. B. K.

About three months since a young lad named Robinson, of West Jamaica, Long Island, New York, was bitten by a dog supposed to be mad. As the wound healed up nicely, and the physicians were of the opinion that it was of no very serious nature, no fears were entertained as to the safety of the young man. On Monday, however, he was attacked with hydrophobia and after suffering three fits, died a most agonizing death.

COLUMBIAN HALL, TRINITY COLLEGE,
N. C. Aug. 21, 1869.

At a meeting of the Columbian Literary Society, held Monday evening the 16 h instant, the following resolutions were unanimously adopted.

WHEREAS, It hath pleased Almighty God, in his inscrutable wisdom, to remove from our midst our late highly esteemed fellow-student and beloved comrade, Julien E. Leach, Therefore

Be it resolved, That while we deeply deplore his untimely death, we, at the same time, bow in humble submission to His divine will, who, in goodness and mercy doeth all things well.

Resolved, That in the death of Julien E. Leach, our Society has lost one of its most useful members; our Alma Mater one of her most gifted sons, and the social circle one of its brightest charms.

Resolved, That while we ineffably regret the early close of a life so bright with youthful anticipations and earnest with the promises of a glorious future, we feel that he has exchanged the Ocean of Time for that river of eternal life whose source is in the glory of God.

Resolved, That we tender to the bereaved family our sincerest sympathies, in this their hour of anguish and assure them, that while they bewail the departure of a faithful son, we mourn the loss of an inestimably precious friend.

Resolved, That, we wear the usual badge of mourning for thirty days, as typical of the sorrow, which the insatiate Archer has occasioned in our midst.

Resolved, That, a copy of these resolutions be forwarded to the family of the deceased, and also to the Wilmington *Journal* and Raleigh *Sentinel*, with a request for the publication of the same.

THE BYRON SCANDAL—DISCLOSURES BY MRS. STOWE.

The New York *Tribune* of Wednesday publishes the essential portions of a very remarkable magazine article, in which Mrs. Harriet Beecher Stowe tells anew the story of Lord Byron's separation from his wife, one of the saddest scandals of our modern literature, in the light of a conversation had with Lady Byron four years before her death. The *Tribune* says:

Interesting and graphic as is the recital, the new facts positively established are not so many as might have been expected.—That Lord Byron was a libertine all the world knows. That the worst any one could say of Lady Byron was that she was faultily, faultless her husband was the first to admit. The present story cannot, therefore, add anything to the general appreciation of Lady Byron's character, nor can it do more than add one, albeit the foulest shade of darkness, to a character which the world has already accepted as very black.

Mrs. Stowe now sets forth that the separation between the poet and his wife was not due to his brutal treatment, beginning, as she herself tells us, at the very Church doors, when he exclaimed, "Madam, you will find you have married a devil," and continuing all the years of their wedded life, but to Lady Byron's discovery of an incestuous intrigue between her husband and his own sister, (his half sister really,) which began before their marriage, and continued under her roof. This horrible statement rests simply on Lady Byron's assertion that she had discovered evidence of it, although Mrs. Stowe adds that it is now well known in England, and leaves it to be inferred that the guilty sister had herself made confessions to the aggrieved wife.

It remains to say that Lady Byron's reason for making so frightful a revelation against her dead husband was a belief, urged by her friends, that it was necessary to exhibit his true character to check the popular and pernicious influence of his writings; and that Mrs. Stowe's reason for now bring the whole matter before the world is a desire, since the publication of the Countess Guiccioli's Memoirs, to vindicate the memory of the wife against the slanders of the mistress. Resting, as the revelation does, on the statement of Lady Byron to Mrs. Stowe, without any mention of particulars, production of corroboratory proof, it is quite possible that the world may be disposed as readily to believe that Lady Byron might have been deceived as that her depraved and licentious husband was a monster. Both on this point and on the propriety of the publication in any event, we are likely to have an abundance of discussion in literary circles.

ANOTHER BURNING STAR.—Father Secchi has added a discovery to the many he has already made in the ever-widening world of stars. He has discovered a celestial conflagration. He has turned that most wonderful and simple of all instruments, the spectroscope, to the variable star Rin Gemini, and he has found it all ablaze! We well remember the thrilling sensation which was caused by the sudden outburst of a star in Corona in 1865, which shone with the lustre of a star of the fourth magnitude, and gradually disappeared in the formless void, through still remaining as an object of telescope research. The variable star in Gemini to which we now refer, attained its maximum brightness in February last, and has been subjected to a careful spectroscopic examination by Father Secchi, one of the unwearied investigators of celestial phenomena. He found its spectrum closely analogous to that of the star in Corona.—It shows a brilliant hydrogen ray, and, as near as terrestrial observation can determine, presents the awe-inspiring spectacle of a world on fire! It has taken many years for the light of that burning star to reach our mortal vision; perhaps even now, yonder sparkling sun flaming up among the stars passed into a new form of material existence, and its dependent worlds have been dissolved in vapor. Many years must pass before even on the swift wing of light the tidings will be borne to us, for many years still shining among its peers will the star be a sun by mortal eyes even when the fiat of Almighty Power has blotted it out forever. Rein Gemini is not the only fire whose mighty blaze we have to watch. The physicists have been busy with the two comets of 1868, called Brorson's and Winnecke's, and found them to be masses of burning carbon of extreme tenuity. Winnecke's comet still faintly burns in the northwestern evening sky. Now, too, we can account for the great star of 1572, which suddenly shone forth in Cassipeia with a brightness which made it visible at noonday; now we comprehend the lesser light of Corona, and watch with intensified interest the fire which every night is revealed to our observation.

A NUT TO CRACK.—If the reduced tax of three fourths on whiskey, or from $2 to 50 cents a gallon, increased the revenue from $13,000,000 to $43,800,000 in one year, what may not be expected from lower rates of taxes on other articles? High taxes lead both to direct and indirect frauds upon the revenue. They drive honest men out of business, as the tobacco tax did by the hundred during the first years of its imposition, and leave trade and the market under the control of dishonest officials and dealers.—*N. Y. Express.*

The house and store rents paid in London annually are estimated at $100,000,000.

Amount of Assets $12,000,000.00.

DIVISIBLE SURPLUS $2,675,999.48,

AND CONSTANTLY INCREASING.

ALL THE SURPLUS OF THE COMPANY DIVIDED AMONG THE ASSURED.

DIVIDENDS DECLARED AND PAID ANNUALLY ON THE CONTRIBUTION PLAN.

ALL POLICIES (AFTER TWO FULL PAYMENTS) NON-FORFEITABLE, AND SO EXPRESSED ON EACH POLICY.

No Restrictions as to Residence and Travel in the United States.

RATES LOWER THAN ANY OTHER COMPANY THAT PAYS DIVIDENDS TO POLICY-HOLDERS.

IT ISSUES ALL THE VARIOUS FORMS OF LIFE AND ENDOWMENT POLICIES.

LOSSES PAID PROMPTLY IN CASH.

LIST OF LOSSES ACTUALLY PAID BY THE ÆTNA LIFE INS. CO., AT THE BRANCH OFFICE, IN RALEIGH, BY THE HANDS OF W. H. CROW, GENERAL MANAGER OF THE STATE AND PART OF VA.

" 22,304	15,00

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

KNICKERBOCKER,	$16,54
EQUITABLE,	17,44
NORTH AMERICA,	21,16
BROOKLYN,	21,09
UNIVERSAL,	27,24
JOHN HANCOCK,	18,27
THE NATIONAL,	63,48
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fulness and purity, from this excellent, powerful, and flourishing Company, the Ætna Life, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 589 policies, received an income of seventy-eight thousand dollars, and possessed nett assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,237 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

Go to Alfred Williams' Book Store and get a spelling book. It would be of advantage to many a newspaper correspondent and other literary characters.

HOOK AND LADDER COMPANY—ATTENTION!—There will be a meeting of the Hook and Ladder Company at the Court House this, Monday evening, at 8 o'clock.

Every member is requested to be present.

E. H. RAY, Foreman.

C. D. Upchurch and E. J. Parrish, officers of the Revenue, seized a number of stills and fixtures in Franklin county last week. The stills seized belong to the following persons; J. R. Jeffreys, John Richards, Wm. Clifton, A. J. P. Harris and John Bottom.

No doubt these men, and hundreds of others were running their stills under the impression created last Fall by certain publications in the newspapers, that there was no prohibition or tax on a man's stilling up his own fruit for his own use.

The workmen were engaged on Saturday in rearing the large iron columns for the front of Mr. B. P. Williamson's Store, corner of Fayetteville and Martin Streets. This, when completed, will be one of the finest buildings in the State. Mr. Appleget is the Architect; the work is done by Mr. T. H. Briggs.

CABBAGES.—We are indebted to our friend B. W. Green, residing near the city, for some fine cabbage, raised in his garden. We have not weighed them, but they are as large as any we have seen during the season. Before Bryant got married his garden was grown up in weeds higher than a man's head; now, no doubt, he has a garden of fine vegetables—showing the advantage of having a good wife.

SERIOUS ACCIDENT.—We learn that a youth by the name of William B. Saddler while driving a wagon, at the work-house, ran against a pile of lumber, which fell on him and crushed him so badly that it is thought he cannot recover.

THE PENITENTIARY COMMISSION adjourned on Saturday afternoon. We learn they adopted a general plan of the building and took steps for the immediate commencement of operations. Mr. L. T. Schofield has been elected architect of the building, and Mr. Wm. J. Hicks, a skillful architect of our city, was elected Assistant, and will have the immediate supervision of the work. It is the intention of the Commission to push the work with all prudent dispatch.

On yesterday (Sunday) morning about half past 6 o'clock policemen Crossan and Brenton observed smoke issuing out of the back part of the building on Fayetteville Street, occupied by A. D. Royster & Brother, as a Confectionary Store. On entrance it was discovered that a fire had ignited by some means in the rear room under the stairway, where there had accumulated a good deal of loose paper and trash. As the fire had made but little headway it was extinguished without much trouble by Messrs. McGuire and Clansay. We are glad to say that little or no damage was done

The Messrs. Roysters were, we understand, insured in the North Carolina Home Insurance Co., to the amount of $1500, which loss would have been promptly met, if the worst had occurred.

The surgeons reports show that our armies have suffered greatly from chills and fever which is induced by the miasma and change of climate to which they are exposed.—They also find Ayer's Ague Cure is an effectual remedy for this distemper, and are urging the government to adopt it within the regulations. The Surgeon General hesitates, because it is put up in a proprietary form. However great that convenience to the public, he prefers the physicians of the army should give their own directions for the dose. Whatever professional pride may dictate, he knows as well as we do, that Dr. Ayer's "Cure" is an almost perfect antidote for the Ague, and that the soldiers should have the benefit of it, as well as the people.—*Washington (D. C.) Correspondence.*

Near Plank Chapel last Sunday evening a little son of Mr. David Hays was knocked off a mule by a negro riding by on horseback, and the mule was knocked down, falling on the boy. Medical assistance was instantly called in from the church close by where a protracted meeting was progressing. The little fellow received several severe contusions and a portion of his skull was so depressed that it is feared he will die. Persons should be more careful how they pass others, either in riding or driving.—*Henderson Index.*

Granville Superior Court was held last week, Judge Watts presiding. The Henderson Index says:

We regret that a difficulty should have occurred during the trial of the Bragg case between his Honor Judge Watts and Col. L. C. Edwards one of defendants' counsel. We learn that Col. L. was fined $50 for contempt of Court and suspended from practice for a week which expired yesterday.—As we have heard only one side of the matter we shall refrain from comment.—*Henderson Index.*

THE MAYOR AND THE JUDGE.—We learn that the Mayor has written to Judge Cantwell, intimating, in pretty strong language, that the Mayor's Court Room shall be used by Judge Cantwell *only* when *city* offenses are being tried. It this intimation be carried into effect, the Judge will be compelled to find other quarters, when dispensing "reconstructed" justice to the unfortunate fellows who are carried before his stern tribunal on charges other than city offences.—*Wilmington Star.*

THE CASE OF MCDONALD.—The case of W. H. McDonald, who passed himself off as a Revenue Officer, and collected revenue on a barrel of cider in the market last Wednesday, was up before Commissioner Porter, on Saturday morning.

W. W. Brown testified that he had heard McDonald tell Sandford Smith, (the colored man who had the cider,) that he was a revenue officer, and saw Smith pay McDonald money as a tax on the barrel of cider he was selling, but did not know how much was paid. He had never seen McDonald before.

Sandford Smith, the cider vender, stated that McDonald came up to his cart, on Wednesday morning, in the Market, and asked to taste his cider; he drew him some, and gave him a taste; McDonald then asked him if he knew who he was, and he told him he didn't; Mr. D. then told him he was a revenue officer, and was very sorry to find that he was selling cider against the law, that he looked like a hard working man, and that it would cost him $20 for selling without license, and might cost him $2,000 before it was done with; he then took him behind the "dog house" and told him he was disposed to be easy with him, and would let him off on payment of one dollar, provided he would leave the market immediately. The old fellow whose imagination had already pictured the seizure and confiscation of his "muley" ox, his cart and cider barrel, with himself a prisoner, listening through the "ten of diamonds," to the moans and cries of his wife and children outside the walls of the "Wake County Hotel," gladly paid the required dollar (all he had) and hitched up to start.—Swears positively that the prisoner is the man who collected the dollar.

Thomas Alston, colored. Saw McDonald at his shop at the market—McD. told him he was a revenue officer and could show him the papers signed by Governor Holden and the others." Lent McD a dollar and let him have a drink and a cigar, on the strength of his official standing. Prisoner wanted three dollars, but he was "short" and couldn't lend him but the one—leaving only one in the till. Witness had no doubt of his being a revenue officer at the time—knew there were a great many of them, and thought he was one. Had seen prisoner before Wednesday, in his shop, where he had drank and paid the "scot."

Mr. Bleecke stated that the man, McDonald, was not an officer, or connected with the revenue in any manner.

The accused was held to bail in the sum of $500 to answer at the November term of the U. S. Court, in default of which he was sent to prison.

TYPE SETTING MACHINE.—Every year almost the long sought perfect type setting machine is invented. The latest is the invention of a man in Raleigh, and is approved by Mr. Seaton Gales and Gov. Holden, who assert their belief in its practicability. The name of the new instrument, which is called "The Wild Goose Type Setting Machine," excites suspicion, but the inventor is sanguine, and he promises to furnish forwith an accompanying type distributor, the two machines not to cost more than four hundred dollars.—*Charlotte Observer.*

The *name* of this machine cannot possibly affect its utility; it was adopted because of the sneers of that class of wiseacres who declared formerly that Railroads were an impossibility and telegraphs a humbug, and who stood with their mouths wide open when they first saw a Daguerreotype. This same sort of persons said Mr. Foster was engaged in "a wild goose project," so he adopted the name, perhaps somewhat in defiance of their views and sarcasm. The name is not inaptly suggestive of the rapidity with which the machine "handles" the types, resembling the quickness with which the wild goose gathers up the seeds of the cane.

We have seen the Machine at work, and can testify to the truth of all that has been said of it in Mr. Foster's card; and we have no doubt that the Distributor will be perfected as soon as Mr. Foster can procure the means of prosecuting his labors on it, and that it will prove a perfect success.—For the purpose of procuring the means of continuing his work, he offers to sell an interest in the type setting apparatus, which is already a success.

A MAGISTRATE WHO CAN'T WRITE HIS NAME.—There actually qualified before the County Commissioners Thursday, a negro magistrate who can't write his name, and was compelled to affix "his mark" to the qualification oath. His name is George Page, elected for Holly township during the recent election. He will have a fine time making out warrants; and still he is also one of the Trustees for the township.—*Wil. Journal.*

The Robeson County militia and the outlaws who murdered ex-Sheriff King of that County, had a fight at Red Banks last Wednesday night, in which one of the militia was wounded, and the outlaws made their escape.

THE RAPID GROWTH OF CHICAGO.—The late Charles Jackson who built the Fort Dearborn lighthouse at Chicago, about the year 1830, on his return to Detroit after the completion of the work, related the fact that he had been urged to buy one hundred and sixty acres of land (on the present site of the city) at two dollars per acre, but he considered it so utterly worthless that he would not have taken it as a gift. The land was marsh, and was under water a good portion of the year. Its products were bullfrogs and mosquitoes, which yielded only music neither edifying nor profitable.

A woman named Mrs. Gifford, living in the northern part of Marion county, Iowa, died Saturday from the efforts of fright at the eclipse. She had no knowledge of its approach and was alone at the time it came on, with the exception of a child four weeks old. Terrified at the sight, she seized her child and fled to a neighbor's, a mile distant. When she reached there her reason had gone. A doctor near by was called in, who pronounced her incurable.—She lingered till Saturday, when she died without her reason having returned.

In the Austrian army, there are 175 generals, 271 colonels, 302 lieutenant colonels and 616 majors in active service, and 338 generals, 403 colonels, 411 lieutenant colonels, and 1,410 majors on the retired list, drawing pensions.

CHINESE SUPERSTITIONS.—Admiral Rowan, in his late report from our squadron in Chinese and Japanese waters, says: "The Chinese refuse to allow foreigners to mine coal, and will not mine it themselves because of the Fung and Shuey." The questions very naturally arise, who and what are the Fung Shuey? Are they a powerful party opposed to foreign enterprise and internal progress? The Fung Shuey are powerful but impalpable, having no existence save in the imaginations of the over-superstitious Chinese. These Fung Shuey are believed to be good and evil spirits that people the air, and influence the destines of the people in the every day affairs of life. A few years ago business became very dull in Shanghai, The native merchants alarmed at the prostration of trade, consulted the adepts in Fung Shuesim, for it has its professors. The latter, after grave deliberation, informed the mercantile community that the north gate of the city had no walls before it to arrest the bad spirits, and that they had, in consequence, entered and destroyed business. A wall was at once erected, for the Chinese implicitly believe that the evil spirits of the air cannot turn a sharp corner. So all through the cities of the China walls and fences are erected, and in some instances, trees planted, to retard the progress of evil spirits, and other structures are destroyed as impediments to the paths of the good ones. For a shrewd money-getting people, as the Chinese are, this superstition is a most surprising one. But it obtains universally from the highest mandarin to the most humble coolie. The opening of coal mines, the Chinese believe, will free from their imprisonment in the earth legions of evil Fung Shuey, whose influence will be almost too fearful to contemplate.—*Philadelphia Inquirer.*

Special Notices.

"Fresh as a Maiden's Blush" is the pure peachy Complexion which follows the use of Hagan's Magnolia Balm. It is the True Secret of Beauty. Fashionable Ladies in Society understand this.

The Magnolia Balm changes the rustic Country Girl into a City Belle more rapidly than any other one thing.

Redness, Sunburn, Tan, Freckles, Blotches and all effects of the Summer Sun disappear where it is used, and a genial, cultivated, fresh expression is obtained which rivals the Bloom of Youth. Beauty is possible to all who will invest 75 cents at any respectable store and insist on getting the Magnolia Balm.

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are of a truly marvellous character. Invigorated by the vitality of Sarsaparilla, where the system seemed utterly given up to corruption, have yielded to this compound of anti-scrumous virtues. Disorders of a scrofulous type, and affections which are merely aggravated by the presence of scrofulous matter, have been radically cured in such numerous instances, in every settlement in the country, that the public do not need to be informed here that it is in most cases a specific and absolute remedy.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver. These facts make the occasional use of the *Sarsaparilla* as a preventive, advisable.

It is a mistake to suppose that an *Ague* as no eruptions or humors appear, there must be no scrofulous taint. These forms of derangement may never occur, and yet the vital forces of the body be so reduced by its subtle agency, as materially to impair the health and shorten the duration of life. It is a common error, also, that scrofula is strictly hereditary. It does, indeed, descend from parent to child, but is also engendered in persons born of pure blood. Low living, indigestion, foul air, Scentless habits, uncleanliness, and the depressing vices generally, produce it. Weakly constitutions, where not fortified by the most constant and judicious care, are peculiarly liable to it. Yet the robust, also, whose turbid blood swells the veins with an apparently exuberant vitality, are often contaminated, and on the road to its consequences. Indeed, no class or condition can depend on immunity from it, nor feel insensible to the importance of an effectual remedy.

In *St. Anthony's Fire, Rose or Erysipelas, for Tetter, Salt Rheum, Scald Head, Ringworm, Sore Ears and Eyes*, and other eruptive or visible forms of the diseases caused primarily by the scrofulous infection, the *Sarsaparilla* is so efficient as to be indispensable. And in the more concealed forms, in *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and other affections of the muscular and nervous systems, the *Sarsaparilla*, through its purifying power, removes the cause of the disorder and produces astonishing cures.

The sarsaparilla root of the tropics does not by itself achieve these results. It is aided by the extracts combined with it, of still greater power. So potent is this union of healing virtues, *Syphilis or Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. *Leucorrhœa or Whites, Uterine Ulcerations*, and *Female Diseases* in general, are commonly soon relieved and ultimately cured by the invigorating and purifying effect of our *Sarsaparilla*. *Rheumatism* and *Gout*, often dependent on the accumulations of extraneous matters in the blood, have their remedy also in this medicine. For *Liver Complaints*, torpidity, inflammation, abscess, etc., caused by rankling poisons in the blood, we unhesitatingly recommend the *Sarsaparilla*.

This medicine restores health and vigor where no specific disease can be distinguished. Its resuscitative power is soon felt by those who are *Languid, Listless, Despondent, Sleepless*, and filled with *Nervous Apprehensions or Fears*, or who are troubled with any other of those affections symptomatic of weakness. Many, after taking it for *General Debility*, have written us of the youthful vigor imparted to their nervous system, which seemed buoyant with that prolific life they thought had departed on the advance of age. Others, whose industries of life were always sterile, acknowledge their obligations to it for an obvious change.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

Prepared by DR. J. C. AYER & CO., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the so

The Age of Progress.

We publish to-day, the first scheme in the sale of Real and Personal Estate—a Company chartered by the last Legislature, with a capital of one hundred and thirty thousand dollars, and with power to increase that amount to five hundred thousand dollars. An examination of the charter satisfies us that the Company is pursuing a legitimate business; they are empowered to "dispose of Real and Personal Estate *in any mode or form* they may deem best," and "all laws, or clauses of laws, coming in conflict with said charter are hereby repealed." This is plain and unmistakable English, and we have no doubt the transactions of the Company will prove beneficial to the property holders of North Carolina. For example: Mr. A. owns a piece of real estate which he wishes to dispose of. He throws it upon the market, and fails to get a bid that would warrant him in making a deed. He then places it in the hands of the North Carolina Real and Personal Estate Agency, at a fair valuation, and the property is sold by chance—the owner gets his price—the Company a fair and reasonable compensation, for selling—and some poor man, for *two dollars* comes in possession of a homestead, which, under any other circumstances, he would not have owned.

In fact, we do not view the Company as a Lottery—it is what it purports to be, a simple Agency for the sale of property, for its true value, which, otherwise would be sacrificed.

We refer our readers to the advertisement—the splendid real estate offered, and the other rich prizes, amounting in all to THREE THOUSAND AND ONE—and the reader will perceive, by the simple rule of division, that there is one prize to every twenty-four tickets.

The General Agent of the Company has given us a call, and assures us, that the success of the Company is no longer a problem. In thirty-five counties through which he has just traveled, he represents the people as being enthusiastic in favor of it—both as to investing, and the placing of property in the hands of the Company for sale. He represents that already, before the first grand drawing has taken place, applications to sell, amounting to half a million dollars, are on file in the Secretary's office.

We learn from the Raleigh papers, that the explanatory drawing which took place in the city of Raleigh, on Saturday last, passed off to the decided satisfaction of a large audience assembled in Tucker Hall to witness it.—*Wil. Post.*

One three cent stamp must accompany every order. All tickets will have the seal of the Company and signature of the Secretary.

☞ We refer to any Merchant, Banker or other gentleman of standing in the city of Raleigh.

For further description and particulars, address

JOHN SKINNER,
Secretary.
